TITLE: Social Media Policy for Employees and Associated Persons

NUMBER: BUL- 5688.1

ISSUER: Ruth Pérez, Deputy Superintendent of Instruction
Division of Instruction

Gerardo Loera, Chief Academic Officer
Curriculum Instruction and School Support

DATE: January 29, 2015

POLICY: The Los Angeles Unified School District is committed to providing a safe and secure learning and working environment for its students, employees and associated persons. The Los Angeles Unified School District encourages positive relationships between students, employees and associated persons. There is a distinction between being supportive of students and the real or perceived breach of confidentiality or misconduct. Employees and all associated persons who work with or have contact with students are expected to follow all District policies, BUL – 999.10, Responsible & Acceptable Use Policy (RAUP) For District Computer Systems and BUL – 5167.0, Code of Conduct with Students – Distribution and Dissemination Requirement Policy when using social media as a form of communication.

MAJOR CHANGES: This revision replaces BUL-5688.0, dated February 1, 2012.

PURPOSE: The purpose of this updated bulletin is to provide policies and guidelines for social media communications between employees, students, parents and other associated persons; to prevent unauthorized access and other unlawful activities by District users online; to prevent unauthorized disclosure of or access to sensitive information, and to comply with the Children’s Internet Protection Act (CIPA). While the District recognizes that during non-work hours employees and students may participate in online social media, blogs, and other online tools, District employees and associated persons should keep in mind that information produced, shared and retrieved by them may be subject to District policies and is a reflection of the school community.

BACKGROUND: The use of social media may have many instructional benefits but when social media postings violate the law or District policies or create a substantial disruption to the school community and/or work environment, the administrator may have an obligation to respond and take appropriate action, including but not limited to investigation and possible discipline.
Under certain circumstances, the District has jurisdiction to discipline employees who violate rules of appropriate conduct, which include, but is not limited to, the use of social networking sites during or outside of work hours. Additionally, the District may not be able to protect or represent employees who incur legal action from a second party in response to the employee’s behavior in a social networking site.

GUIDELINES:  I. DEFINITIONS

*Apps* are applications used to post media and are accessed primarily through mobile devices. Apps can access the user’s pictures, personal information, and GPS location.

*Associated Persons* includes, but is not limited to, parents, parent-elected leaders of school committees, representatives and volunteers, consultants, contracted employees, walk-on coaches, child care/enrichment program providers, vendors and after-school youth services providers.

*Blogs/Microblogs* are personal websites that can serve as journals where a user can post a variety of content authored by the user and authored by others for public viewing.

*Confidential data* refers to District-related content such as (but not limited to) grade and exam information, attendance data and behavior incidents.

*Cloud Computing*, otherwise known as ‘using the cloud,’ requires an Internet connection and is the practice of accessing files across multiple devices over the Internet.

*Digital Citizenship* is the practice of critical engagement and respectful behavior online, which is demonstrated through the digital content a student posts.

*Digital Footprint* is determined/defined by an individual’s choice of content to post and profiles made across multiple websites, apps, and other platforms.

*Media Sharing Sites* are sites where users can store and share content such as video and pictures.

*Social Media* also referred to as social networking, is a form of electronic communication through which users create online communities to share and view information, ideas, personal messages, and other content.

*Social Networking Sites* are sites where users create and customize their own profiles with music, video, and other personal information in addition to connecting with other users.
Tagging is the practice of identifying and assigning information to a digital artifact such as a website, blog post, photo, video, or article for the purpose of easy identification, organization, aggregation, and searching. Tagging helps users find content they are looking for through across online platforms.

Wikis are websites that allow a user to add, modify, or delete content in collaboration with others.

II. SOCIAL MEDIA GUIDELINES FOR EMPLOYEES AND ASSOCIATED PERSONS

Many schools, offices and departments have their own websites and social media networks that enable staff to share school/work-related information (e.g., grades, attendance records, or other pupil/personnel record information) may be shared only on District-approved secured connections by authorized individuals. Confidential or privileged information about students or personnel must be maintained at all times.

All existing policies and behavior guidelines that cover employee conduct on the school premises and at school-related activities similarly apply to the online environment in those same venues.

1. Keep personal social network accounts separate from work related accounts. When a student or minor wishes to link to an employee’s personal social networking site, redirect them to the school approved website. Accepting invitations to non-school related social networking sites from parents, students or alumni under the age of 18 is strongly discouraged, and on a case-by-case basis, may be prohibited by the site administrator. (BUL – 5167.0, Code of Conduct with Students – Distribution and Dissemination Requirement Policy)

2. Any employee or associated person engaging in inappropriate conduct including the inappropriate use of social media sites and applications during or after school hours may be subject to discipline.

3. Never post any personally identifiable student information including names, videos and photographs on any school-based, personal or professional online forum or social networking website, without the written, informed consent of the child’s parent/legal guardian and the principal.

4. Never share confidential or privileged information about students or personnel (e.g., grades, attendance records, or other pupil/personnel record information).
5. Users shall have no expectation of privacy regarding their use of District property, network and/or Internet access to files, including email. The District reserves the right to monitor users’ online activities and to access, review, copy, and store or delete any electronic communication or files and/or disclose them to others as it deems necessary. [Refer to BUL – 999.10, Responsible & Acceptable Use Policy (RAUP) For District Computer Systems]

6. Posting inappropriate threatening, harassing, racist, biased, derogatory, disparaging or bullying comments toward or about any student, employee, or associated person on any website is prohibited and may be subject to discipline.

7. Threats are taken seriously and are subject to law enforcement intervention, including but not limited to formal threat assessments. [Refer to BUL – 5798.0, Workplace Violence, Bullying and Threats (Adult-to-Adult)]

8. District employees and associated persons are responsible for the information they post, share, or respond to online. Employees should utilize privacy settings to control access to personal networks, webpages, profiles, posts, digital media, forums, fan pages, etc. However, be aware that privacy settings bring a false sense of security. Anything posted on the Internet may be subject to public viewing and republication by third parties without your knowledge.

9. If you identify yourself online as a school employee or associated person, ensure that your profile and related content are consistent with how you wish to present yourself to colleagues, parents, and students. Conduct yourself online according to the same code of ethics and standards set forth in the Responsible & Acceptable Use Policy. It is recommended that you post a disclaimer on your social media pages stating “The views on this page are personal and do not reflect the views of the Los Angeles Unified School District.”

10. Use of District logos or images on one’s personal social networking sites is prohibited. If you wish to promote a specific LAUSD activity or event, you may do so in accordance with the Office of Communications and Media Services guidelines.

11. Misrepresenting oneself by using someone else’s identity may be identity theft. It is advisable to periodically check that one’s identity has not been compromised.
12. During an emergency situation that impacts the employee’s work site, the employee may post a general statement of well being to their social network account if doing so does not interfere with their assigned emergency duties.

III. EDUCATIONAL VALUE OF SOCIAL MEDIA

Technology is reshaping how we reach our students and how students interact with the world. For example, some teachers are using social media as an educational tool. Schools are using social media to launch anti-bullying campaigns, to share school news and events, to increase homework compliance and support, or to enhance classroom instruction. All social media interaction between staff and students must be for instructional purposes and must not include confidential information without parental and site administrator approval. [Refer to BUL – 6399.0, Social Media Policy for Students]

When using social media for instructional purposes, the highest possible privacy settings must be utilized. The site administrator and parents must be notified of all classroom social media use. Additionally, the site administrator or designee shall have administrative access to such sites. If online commenting is enabled in an open site, the comments must be moderated and monitored daily for inappropriate language and content.

IV. RESPONSIBILITIES OF DISTRICT EMPLOYEES AND ASSOCIATED PERSONS

All District employees and associated persons are expected to:

- Adhere to this Social Media Policy for Employees and Associated Persons.
- Be familiar with and follow the guidelines and the provisions of this policy.

All District employees utilizing social media with students are expected to:

- Educate students about digital citizenship, which includes appropriate and safe online behavior, interacting with individuals on social networking websites, and cyberbullying awareness.
- Be familiar with and follow the guidelines and the provisions of this policy and BUL–6399.0, Social Media Policy for Students.
Additional responsibilities include:

A. Administrator/Designee should:

1. Distribute and communicate this *Social Media Policy for Employees and Associated Persons* to all employees and associated persons.

2. Investigate reported incidents of employee or associated adults’ misconduct or violations of appropriate conduct. [Refer to BUL-999.10, *Responsible & Acceptable Use Policy (RAUP) For District Computer Systems*, BUL-5167.0, *Code of Conduct with Students – Distribution and Dissemination Requirement Policy* and other related District policies.]

3. Postings of a serious nature may warrant additional reporting to School Operations and the appropriate reporting agency:
   a. Threats (contact Los Angeles School Police Department (LASPD), School Operations, and Crisis Counseling and Intervention Services).
   b. Inappropriate or sexualized images of minors (contact law enforcement and LASPD),
   c. Child pornography (contact law enforcement and LASPD Police),
   d. Raise a reasonable suspicion of child abuse (contact Child Protective Services).

   [Refer to BUL-5798.0, *Workplace Violence, Bullying and Threats (Adult-to-Adult), BUL-5799.0, Threat Assessment and Management (Student-to-Student, Student-to-Adult), and BUL-1347.2, Child Abuse and Neglect Reporting Requirements*]

4. Inappropriate postings may be documented by taking and printing screen shots or downloading them as evidence. Evidence should be collected with the permission of the site administrator for the sole purpose of the investigative process and stored in a secured location. This evidence may be used in conference with the employee(s) or associated persons in question. **Caution: Do not download or print images of minors or any content that may be considered child pornography. Law enforcement will gather evidence of child pornography, not a District employee.**

6. The target of online harassment can request removal of objectionable postings by reporting the abuse to the Internet service provider or
webmaster. Most social networking sites have the capacity to flag objectionable postings with “report abuse” button. The target should document the postings prior to their removal.

7. Monitor and follow-up to ensure that the inappropriate online behavior has stopped.

8. Refer to the appendix, Behavior Intervention Matrix.

B. Educational Service Center Superintendent should:
   1. Communicate this Social Media Policy for Employees and Associated Persons to administrators and employees and associated persons.
   2. Designate administrators to ensure the implementation of this policy.

C. Central Office Staff should:
   1. Support this policy by assisting schools and worksites via trainings, consultation, and distribution of resources.
   2. Align this policy with related District initiatives.

V. GENERAL PROTOCOL FOR RESPONDING TO COMPLAINTS

The following are general procedures for the administrator/supervisor to respond to any complaints:

A. Secure campus/office safety.
B. Assure involved parties that allegations and complaints are taken seriously.
C. Investigate.
D. Take action to stop the behavior.
E. Request a factual written statement from the involved parties, to include witnesses if available.
F. Consult with the Local District, Staff Relations and other offices, as appropriate.
G. Document actions taken.
H. Implement disciplinary action as needed.
I. If appropriate, the victim may file a criminal complaint with law enforcement.
J. Continue to monitor and address inappropriate behaviors.
K. If appropriate, complete the Incident System Tracking Accountability Report (iSTAR).
L. Information about allegations of misconduct or investigations should be
handled within the confines of the District’s reporting procedures and investigative process. The District will not tolerate retaliation against anyone for filing a complaint or participating in the complaint investigation process.

If the allegation is against one’s administrator or supervisor, that person’s supervisor shall respond to the complaint (Refer to BUL-5798.0, Workplace Violence, Bullying and Threats (Adult-to-Adult), Attachment D, Workplace Violence Complaint Form).

**AUTHORITY:** This is a policy of the Superintendent of Schools. The following legal authorities are applied in this policy:

California Education Code §44932 et seq. and California Penal Code §422 et seq.

**Notes:**
- The Behavior Intervention Matrix is designed to address and intervene in student behavior that poses a risk to the safety of the school or others.
- The matrix is divided into different categories based on the severity of the behavior.
- Each category lists examples of student behavior that may warrant specific interventions.
- The Code and Task/Exam Event columns indicate the specific actions taken based on the behavior.
